

ONSITE SEARCH ENGINE OPTIMISATION

If you are looking to direct more traffic to your website, then making it as easy to find as possible – and keeping it that way - is absolutely necessary. This approach to SEO improves the likelihood of being found for the type of content that is currently on your site.

HOW DO WE DO THIS?

We will analyse and correct the following hindrances to your search performance:

- Slow site loading time
- Missing descriptions
- Missing keywords
- H1/2/3 not utilised
- Missing image alt tags
- Missing site map
- Overuse of inline CSS
- No data provided for social media
- URL Structure
- Meta Data & Keywords

WHAT YOU GET:

- SEO initial audit
- Implementation of amendments
- SEO follow-up performance report

BUDGET

£1,200 per website
(Dependent on requirements)

IN CASE YOU'RE INTERESTED

We can also manage the SEO on your website on a longer term basis. This service ensures that your business continues to be ranked highly and will capture market share from your competitors by targeting profitable search terms.
